

# Explotrain®

## Model X-04

*“One Shot, One Second, One Dime”*

### Explosive Blast Simulator with Removable Sound Chamber

The Explotrain® Model X-04 provides very realistic and effective explosive battlefield effects to safely train our troops. The explosive blasts produced by the X-04 result in a 120dB punch of sound that your students will feel as much as hear, allowing you the necessary realism required for your training needs. Despite the loudness of the Model X-04, it is safe to use near buildings, windows and personnel.

### Specifications

- 120-130 Decibel Blast
- 150+ Shots per O2 Cylinder
- 50+ Shots per Propane Cylinder
- 10 Cents per Shot
- Fires up to 60 Shots/Min

- Standard Keyfob 315 MHz Transmitters
- Trigger Control Unit
- RS232 or RS485 Interface
- Hardwired Triggers, i.e. PIR Motion Detector, Pressure Plate, Tripwire, etc.

**Safely replicating realistic explosive effects is a difficult aspect of today's training environment.**

The Model X-04 provides the ultimate concealable IED Simulator. The removable sound chamber can be placed up to 50' away from the main unit and partially buried or submerged. The ability to conceal the unit so completely allows you to train your troops to react to and detect the hidden threats they will face in theater.

At Explotrain®, all of our products are 100% made in America and they are made combat tough with our full product warranty. We know our freedoms depend on your success and we are available at anytime to provide any assistance we can, so you can keep your ranges operating smoothly.
